Subject: Microsoft Settlement

The settlement is a bad idea. It allows Microsoft to just go about is business of squashing everyone else. Look at the areas they now control! They want more and they are now being rewarded with a slap on the hand. America needs Microsoft stopped from ruining competition in the computing landscape. Microsoft has proven duplicitous and has displayed their outright blatant lying nature over and over again. Save the taxpayer some money and do the job right this time, otherwise we will just revisit this in a few years. Microsoft has shown a propensity to skirt the rules or follow them long enough to make it pretty window dressing. Fix the problem, make they do the time for the crime.
